THE RÉVÉLATIONS BIENNIAL IS POSTPONED TO 8-12 JUNE 2022 AT THE TEMPORARY GRAND PALAIS

Ateliers d'Art de France is sorry to have to postpone the Révélations, the International fine craft and creation biennial that was scheduled to be held from 10 to 13 June 2021 at the Temporary Grand Palais in Paris. The event is now scheduled for 8 to 12 June 2022.

For several months now, we have all been enthusiastically and determinedly following the preparations for this long-awaited 5th edition of Révélations. On the one hand, exhibitors were hoping they would get back in touch with their clients and on the other hand decoration and architecture professionals, the audience, the collectors...were impatient to meet, collaborate, discover new exclusive and exceptional pieces and unique craftsmanship in the heart of Paris for the very first time.

However, the evolution of the health situation with the prolongation of the state of health emergency in France until June 1st, 2021, along with the prohibition of events and fairs such as Révélations, in addition to all travel restrictions for people and art work on the international level, makes the event too uncertain, less than 3 months before it is scheduled.

PRESS RELEASE

March 2021

This situation leads us not to confront 290 exhibitors and about ten countries confirmed with an overly risky operation.

"The decision to postpone was not an easy one to make, considering the stakes that this event represented for the fine crafts community. For almost a year, creators from around the world have been isolated from their market and clientele. But the responsibility of Ateliers d'Art de France is to ensure an edition in line with our promises and our exhibitors' expectations: fine crafts workers from around the world, artwork manufactures, designers, galleries, foundations, schools, benchmark institutions as well as our partners and our French and international visitors" declares Aude Tahon, President of Ateliers d'Art de France and the Révélations fair.

In addition to having taken action with the public authorities since the beginning of the crisis, the professional organization for fine crafts, major fair organizers in the sector, has been mobilising more than ever with professionals to help them access their markets. Many of them have already confirmed their presence for June 2022, making Révélations their major economic gathering in Paris.

Ateliers d'Art de France will use this additional time to make the programme even richer than it was supposed to be, and the teams are completely mobilised to make this 5th edition exceptional. It will be held from 8 to 12 June 2022 at the Temporary Grand Palais on the Champs de Mars, with Africa as the continent of honour, and an even more fabulous range of exclusive contemporary creations. 2022 should be a true fine crafts and creation celebration for the whole world.

ABOUT ATELIERS D'ART DE FRANCE

Ateliers d'Art de France's mission is to promote the role and place of fine crafts professions in our society. This professional organisation for fine crafts gathers and represents a network of 6,000 French-based creators and supports major actions for the entire fine crafts sector. They have been owning and organising fairs for over 50 years and have built a true selling network in Paris, in other regions, and also online.
